WEB APPLICATIONS DEVELOPER

Team oriented, quality minded, and motivated Ruby on Rails Developer with a solid record of accomplishments emphasizing collaboration and development management in a highly competitive, rapidly growing industry. Demonstrated leadership, problem solving, and planning skills resulting in an integrated system of creative, timely, and practical programs.

Additional strengths:

Ruby & Sinatra	**CSS**	**Problem Solving**
Ruby on Rails	**Sass**	**Communicating**
MVC	**JavaScript**	**Team Building**
Agile Development	**React**	**Researching**
Postgresql	**Typescript**	**Troubleshooting**
PostGIS	**GraphQL**	**Training**

PROFESSIONAL ACCOMPLISHMENTS

Worked in a Team of Ruby on Rails Developers. Using github the team created a silent auction web application using Rails 5.0, Ruby 2.4, bcrypt, OmniAuth, and Shrine. Using Agile Development we delivered a mvp with time to spare. **Result:** Delivered a customizable web application that could be used at any number of Fundraising Galas. The client was pleased.

PROFESSIONAL EXPERIENCE

Full-Stack Junior Software Developer, Spatial Networks   **September 2017 – September 2019**
- Worked for a geospatial intelligence company on a team of talented engineers to design and develop a custom internal web application. Full-Stack engineer who personally worked on all parts utilizing many tools, including Ruby & Sinatra, GraphQL, Ruby on Rails, and React.

Ruby on Rails Program Graduate, The Iron Yard   **March 2017 - June 2017**
- Attended 12-week intensive back-end engineering course designed to give the students the tools and experience needed to enter a career as a junior web applications developer

President, Moline Services, Inc.   **January 2011 – March 2017**
- Business support company providing professional services on a contract basis to small businesses and sole practitioner law firms. Including administrative support, office management, professional photography, and computer and network support.

Living in Germany   **August 2009 - January 2011**

Office Manager, West Coast Family Practice   **April 2007 - August 2009**
- Provided administrative support to the owner of the practice, including creating procedures for new web based insurance pre-authorizations, and eligibility checks. Researched the new market of EMR software for our practice upgrade.
